# Sistemi di apertura

## New Up System binario scorrevole e alzabile con allunghe

*New Up System sliding, liftable track with extension leaves / New Up System rail coulissant et relevable avec allonges*

Due allunghe sono poste sotto il piano del tavolo, alle estremità di un binario scorrevole. Per allungare il tavolo è necessario far scorrere il binario verso l'esterno e alzarlo leggermente: in questo modo le allunghe escono e si posizionano a filo del piano principale.

Un sistema molto pratico che permette di prolungare il tavolo senza rinunciare allo stile.

*Two extension leaves are positioned under the table top at the ends of a sliding track. To extend the table, slide the track outwards and lift it slightly; this releases the extensions which are positioned flush to the main table top. This highly practical mechanism allows you to extend the table, without compromising on style.*

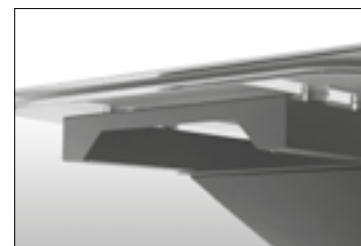

Deux allonges sont placées sous le plateau de table, aux extrémités d'un rail coulissant. Pour allonger la table, il est nécessaire de faire glisser le rail vers l'extérieur et de le relever légèrement : de cette façon, les allonges sortent et se placent au ras du plateau principal. Un système très pratique qui permet de rallonger la table sans renoncer au style.

## Book System apertura telescopica del piano

**Book System with telescopic table top / Book System ouverture télescopique du plateau**

Il movimento ricorda quello dell'apertura di un cassetto: il piano del tavolo si apre lateralmente tramite un meccanismo scorrevole e al suo interno è riposta, agganciata e ripiegata "a libro" l'allunga. A questo punto, è sufficiente aprire una o due allunghe per ottenere un tavolo con più posti a sedere per i propri ospiti.

*The movement resembles opening a drawer in that the table top pulls out sideways thanks to a sliding system. The extension leaf is folded away and fastened on the inside. Simply open out one or two leaves to create more seats at the table for your guests.*

Le mouvement rappelle celui de l'ouverture d'un tiroir : le plateau de la table s'ouvre latéralement par le biais d'un mécanisme coulissant alors que les allonges papillon sont accrochées et logées à l'intérieur. Il suffira donc d'ouvrir une ou deux allonges pour obtenir la longueur de table permettant de recevoir tous ses invités.

## Easy Book System apertura telescopica con allunga a libro

**Easy Book System telescopic opening mechanism with folded extension leaves / Easy Book System ouverture télescopique avec allonge papillon**

Il piano del tavolo si apre centralmente con gamba telescopica e al suo interno è riposta, agganciata e ripiegata "a libro" l'allunga. Con pochi semplici gesti riusciamo così ad allungare il nostro tavolo per poter aggiungere posti a sedere.

*The table top opens in the middle on a telescopic leg and houses the extensions leaves, which are attached and folded like a book. It takes just a few, simple steps to extend our table to seat more people.*

Le plateau de table s'ouvre au milieu grâce au pied télescopique alors que l'allonge papillon est accrochée et logée à l'intérieur. Quelques simples gestes suffisent pour allonger la table afin d'ajouter des places à table.

# Sistemi di apertura

## Evo System apertura con maniglia

**Evo System** opening mechanism with handle / **New Up System** ouverture avec poignée

Le due allunghe laterali e tutto il meccanismo che permettono la loro apertura, sono all'interno di un'elegante struttura che contiene tutto. Per allungare il tavolo basta tirare la maniglia dal lato del capotavola e, con due dita, alzare la prolunga: il meccanismo porterà automaticamente l'allunga in battuta con il piano e con il profilo. Un sistema innovativo di allunga che mette la funzionalità al primo posto senza rinunciare all'estetica.

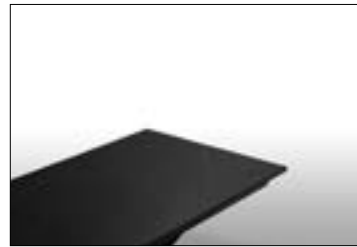

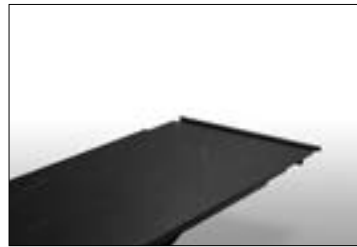

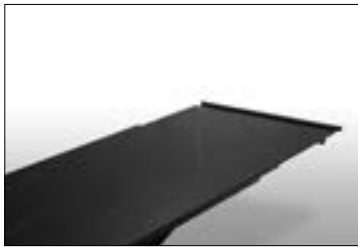

*An elegant frame encloses two extension leaves, one at each end of the table, and the whole mechanism that pulls them out. To extend the table simply pull the handle at the head of the table and lift the extension leaf with two fingers: the mechanism will immediately lock the extension leaf into place so that it is flush with the table top and edge. This innovative table extension system focuses on functionality without detracting from aesthetics.*

Les deux rallonges latérales et tout le mécanisme qui permet de les sortir se trouvent à l'intérieur d'une élégante structure qui contient l'ensemble. Pour rallonger la table, il suffit de tirer la poignée située au bout de la table et, avec deux doigts, de soulever la rallonge: le mécanisme portera automatiquement la rallonge contre le plateau et le profil. Un système de rallonge innovant qui met la fonctionnalité au premier rang sans renoncer à l'esthétique.

### TAVOLI DISPONIBILI CON **EVO SYSTEM**

Tables available with **Evo System**

**TIFFANY** p. 56

## One System staffe estraibili con allunghe esterne

**One System** pull-out brackets with external extension leaves / **One System** bras extractibles avec allonges séparées

Due staffe per lato sono poste sotto il piano del tavolo e, all'occorrenza, escono con un movimento scorrevole. Le allunghe vengono appoggiate e agganciate sopra le guide ma, nel momento in cui non sono necessarie, vengono tolte per essere custodite in uno spazio a piacere, mentre le staffe rientrano. In pochi e semplici step, il tavolo aumenta di dimensioni e di stile.

*Two brackets are positioned on each side under the table top and can be opened out via a sliding mechanism as required. The extension leaves are positioned on top of the runners and fastened in place. When they are no longer needed, they can be removed and stored in your chosen location, and the brackets fold away. Give the size and style of your table a boost in just a few simple steps.*

À chaque extrémité du plateau de table, deux bras extractibles sont logés au-dessous de celui-ci et, au besoin, ils coulissent vers l'extérieur. Les allonges sont posées et accrochées au-dessus des rails. Quand elles ne sont plus nécessaires, il suffira de les enlever et de les ranger à l'endroit choisi à tel effet, puis de rentrer les bras sous le plateau. Quelques simples gestes pour que la table change de dimensions et de style.

## Cross System apertura telescopica della struttura

**Cross System** telescopic frame opening mechanism / **Cross System** ouverture télescopique de la structure

Con questa tipologia di apertura, l'intera struttura si apre lateralmente con un movimento scorrevole e all'interno del tavolo si trovano le allunghe per completare il piano. Una volta estratte e posizionate sopra le guide, le allunghe permettono di estendere il tavolo in più misure, a seconda di quanti piani aggiuntivi sono disponibili. Un sistema molto flessibile, che permette di scegliere di quanto allungare il tavolo.

*With this type of opening mechanism, the full table frame opens out sideways in a sliding motion. The extension leaves can be found inside, to complete the table top. Once extracted and positioned on top of the guides, the extension leaves can be used to extend the table to different sizes, depending on how many extension leaves are available. This flexible system allows you to choose how far you want to extend your table.*

Avec ce type d'ouverture, toute la structure s'ouvre latéralement avec un mouvement coulissant alors que les allonges se trouvent à l'intérieur de la table. Une fois sorties et placées sur les rails, les allonges permettront d'agrandir la table selon les besoins, en fonction du nombre d'allonges supplémentaires disponibles. Un système très flexible qui offre la possibilité de choisir la taille de sa table.

# Space

La particolare struttura in alluminio può essere personalizzata per estendersi al centimetro sia in lunghezza, sia in larghezza. Un sistema flessibile nelle misure e versatile negli utilizzi, ideale per arredare uffici, spazi di condivisione e ambienti contract o per integrarsi a isole e penisole nelle cucine moderne.

*The unusual aluminium frame can be personalised to extend to the centimetre, both lengthways and widthways. This mechanism offers flexible size options and has versatile uses, ideal for furnishing offices, shared spaces and large turn-key project areas. This table also integrates well into islands and peninsulas in a modern kitchen.*

La structure en aluminium particulière peut être personnalisée pour s'allonger en centimètre soit en longueur, soit en largeur. Un système flexible dans les dimensions et polyvalent dans les utilisations, idéal pour meubler les bureaux, les espaces de partage et les environnements contract ou bien pour s'intégrer dans un îlot et un agencement en épi dans les cuisines modernes.

## Disponibile anche nella versione a penisola - Esempi di utilizzo

### Allunghe in tinta con piano in materico. Sulle altre versioni piano allunghe in nobilitato bianco su finiture chiaro e antracite su finiture scure.

For models with a textured top, the extension leaves are made to match. For the other models, the extension leaves have a melamine finish in White where the top finish is pale, and in Anthracite where the top is dark. Allonges assorties à la finition du plateau. Pour les autres versions de plateau, les allonges sont en mélaminé blanc pour les finitions claires et en mélaminé anthracite pour les finitions foncées.

Con piano in materico allunghe in tinta. Sulle altre versioni, allunghe in nobilitato bianco su finiture chiare e antracite su finiture scure. Misure inferiori a 100x125 e quadrato allunghe riposte a parte. Tavolo Space al centimetro, è disponibile anche nella versione penisola senza maggiorazione di prezzo.

Textured tops come with matching-coloured extension leaves. For other top versions, white melamine leaves are provided with pale-coloured tops while dark-coloured tops come with anthracite leaves. For tops smaller than 100x125 and for square tops the extension leaves are stored separately. Made-to-measure Space table; also available in the peninsula version at no extra charge.

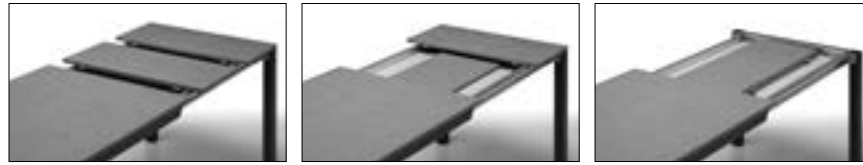

En cas de plateau texturé, allonges dans la même teinte. Pour les autres versions, allonges en mélaminé blanc pour les finitions claires et anthracite pour les finitions foncées. Pour table inférieure à 100x125 et carrée, allonges séparées. Table Space au centimètre, elle existe également pour agencement en épi sans supplément de prix.

### Allunghe in tinta con piano in materico. Sulla versione in vetro piano allunghe in materico bianco gesso.

Per la versione in ceramica allunghe in materico in tinta con il bordo del piano.

For model with a textured top, the extension leaves are made to match. For models with a glass top, the extension leaves have a textured Chalk White finish.

For the ceramic version the extension leaves are in textured matching the colour of the top's edge.

Allonges assorties à la finition du plateau texturé. Pour la version avec plateau en verre, les allonges sont réalisées en texturé blanc craie.

Pour la version en céramique, allonges en texturé assorties au chant du plateau.

# Manutenzione materiali speciali

## Special care instructions / Entretien des matériaux spéciaux

IT

### Vetro temperato

Il vetro temperato si ottiene sottoponendo le lastre di vetro ad un trattamento termico a circa 700 gradi ed eseguendo successivamente un raffreddamento istantaneo, volto a creare una compressione superficiale in grado di aumentare la resistenza della lastra alle sollecitazioni meccaniche e allo sgocciolio termico. Resiste a temperature superiori a 250°.

Il Vetro temperato è considerato "vetro di sicurezza" in quanto, a seguito di rottura, si frammenta in tanti piccoli pezzi non pericolosi per l'incolumità delle persone.

### Ceramica: caratteristiche tecniche

Un'elevata resistenza alle sollecitazioni meccaniche, ai prodotti chimici, all'usura, ai graffi, all'abrasione profonda e alla flessione, è facilmente igienizzabile, resistente al gelo, al fuoco, alle muffe e all'azione dei raggi UV. Sono tutte le caratteristiche e le proprietà cromatiche delle lastre sono inalterabili, restando immutate nel tempo ed in presenza di ogni condizione atmosferica.

Un materiale rivoluzionario che non dimentica l'attenzione all'ambiente: materie prime naturali, tecnologia sostenibile.

### Piani materici

I piani in materico sono pannelli composti da particelle di legno i cui lati sono rivestiti da carte decorative o foglie polimeriche e sono chiusi da bordi generalmente in PVC.

I piani se conservati adeguatamente sono resistenti all'usura e all'azione del tempo, non subiscono variazioni di colore se esposti alla luce del sole. Per la pulizia di questi piani è bene non utilizzare materiali o prodotti abrasivi tipo pagliette o spugne ruvide, né creme abrasive o detersivi in polvere perché potrebbero compromettere l'integrità delle superfici. L'uso di detersivi chimici o particolarmente aggressivi non è consigliato. Da evitare assolutamente l'uso di Acetone, perché potrebbe danneggiare i bordi in materiale plastico, Trielina, Ammoniaca, Alcool Etilico detersivi acidi, come la candeggina, o basici, come l'ammoniaca pura. Sui piani in materico non vanno appoggiate pentole calde. Attenzione alle bordature dei piani: eccessi di acqua o liquidi in genere, calore e umidità possono comportare scollamenti e deformazioni che non rientrano nei difetti imputabili ai pannelli utilizzati o alle lavorazioni degli stessi. Asciugare sempre immediatamente con un panno e con cura acqua e vapori, evitando il contatto prolungato con fonti di calore. Questi materiali non sono stati testati per una permanenza all'aperto. Si possono pulire con un panno in microfibra inumidito con dell'acqua, eventualmente con l'aggiunta di un detersivo neutro. Per evitare la formazione di aloni, ripassare alla fine con un panno asciutto. Le macchie di inchiostro possono essere trattate localmente con alcool denaturato e panno morbido, ma in linea di massima l'alcool deve essere usato con cautela perché troppo aggressivo.

EN

### Tempered glass

The tempered glass is obtained subjecting the glass sheets to an heat treatment at about 700 degrees and then making an instantaneous cooling, to create a surface compression able to increase the resistance of the plate to the mechanical stresses and to the thermal shock. It resists to temperatures above 250 degrees. Tempered glass is considered safety glass since, as a result of breakage, it is fragmented into many small pieces that are not dangerous for the safety of people.

### Ceramic: technical characteristic

The ceramic has an high resistance to mechanical stress, chemicals, scratches, deep abrasion and bending. It is easily sanitized, resistant to frost, to fire, to mold and UV rays. All the characteristics and the chromatic properties of the slabs are unalterable, remaining unchanged over time. A revolutionary material that does not forget the attention to the environment: natural raw materials and sustainable technology.

### Textured tops

Textured tops are wood particleboard panels whose sides are covered with decorative paper or sheets of polymer and that are usually edged with PVC.

If properly looked after, these tops are resistant to wear and durable, as well as not being subject to colour modifications due to exposure to sunlight. To clean these tops, it's best not to use abrasive materials or products such as coarse sponges, scouring pads, abrasive pastes or powder detergents that may damage the surfaces. It is unadvisable to use chemical or particularly aggressive detergents. It is strictly prohibited to use acetone as it may damage any plastic edgings. The following are also prohibited: trichlorethylene, ammonia, ethyl alcohol, acid-base detergents such as bleach or alkaline-based ones like pure ammonia. Never place red hot pots and pans on textured tops. Take particular care with the edgings of tops: excess water or liquids in general as well as heat and humidity can cause ungluing and deformations of the edgings that cannot be considered intrinsic faults in the panels themselves or in the way they are made. Mop up any water or steam immediately with a cloth and avoid prolonged contact with sources of heat. These materials have not been tested for outdoor use. They can be cleaned with a microfibre cloth moistened with water and, if necessary, with the addition of some neutral detergent. To prevent stains from forming, remove any residual moisture with a dry cloth. You can treat ink stains locally with methylated spirits and a soft cloth but, generally speaking, alcohol must be used sparingly because it is too aggressive.

FR

### Verre trempé

Le verre trempé est obtenu en soumettant les feuilles de verre à un traitement thermique d'environ 700 degrés et en effectuant successivement un refroidissement instantané, de façon à créer une compression superficielle afin d'augmenter la résistance de la feuille aux sollicitations mécaniques et aux chocs thermiques. Résiste aux températures supérieures à 250°.

Le verre trempé est considéré « verre de sécurité » puisque, par suite de bris, il se fragmente en de nombreux petits morceaux non dangereux pour la sécurité des personnes.

### Céramique : caractéristiques techniques

Une haute résistance aux sollicitations mécaniques, aux produits chimiques, à l'usage, aux éraflures, à l'abrasion profonde et à la flexion, est facile à nettoyer, résistant au gel, au feu, aux moisissures et aux actions des rayons UV.

Toutes les caractéristiques et les propriétés chromatiques des plaques sont inaltérables, en restant inchangées au fil du temps et en présence de toute condition atmosphérique. Une matériau révolutionnaire qui n'oublie pas l'accent sur l'environnement : matières premières naturelles, technologie durable.

### Plateaux texturés

Les plateaux texturés sont des panneaux de particules revêtus, sur les deux faces, d'un papier décoratif ou bien enrobés polymère et avec des chants généralement réalisés en PVC. Les plateaux adéquatement maintenus résistent à l'usage et à l'action du temps et ne changent pas de couleur à condition de ne pas les exposer à la lumière du soleil. Pour l'entretien de ces plateaux, il est bon de ne pas utiliser de matériaux ou de produits abrasifs du type paille de fer ou éponge rugueuse, ni de crèmes abrasives ou de produits de nettoyage en poudre car ils pourraient abîmer leur surface. L'utilisation de produits de nettoyage chimiques ou particulièrement agressifs est vivement déconseillée. Il faudra absolument éviter d'utiliser de l'Acétone, car il pourrait abîmer les chants en matière plastique, du Trichloréthylène, de l'Ammoniaque, de l'Alcool éthylique et tout type de produit acide comme l'eau de Javel ou basique comme l'Ammoniaque pur. Il ne faudra pas poser de casseroles chaudes sur les plateaux texturés. Attention aux chants des plateaux : l'eau en excès ou les liquides en général ainsi que la chaleur ou l'humidité peuvent les décoller ou les déformer et ces problèmes ne font pas partie des défauts imputables aux panneaux utilisés ou aux façonnages réalisés. Essuyer immédiatement et avec soin l'eau et la vapeur avec un chiffon et éviter le contact prolongé avec toute source de chaleur. Ces matériaux n'ont pas été testés pour un usage extérieur. On pourra les nettoyer avec un chiffon en microfibre humidifié à l'eau. Si nécessaire, on pourra ajouter un produit de nettoyage neutre. Pour éviter la formation d'auréoles, essuyer à la fin un chiffon sec. Les taches d'encre peuvent être traitées localement avec de l'alcool dénaturé et un chiffon doux, mais en principe, il est préférable d'utiliser l'alcool avec prudence parce qu'il s'agit d'un produit trop agressif.

# Legenda simboli / Key of symbols / Légende des symboles

	LAVAGGIO A MANO <i>Hand wash only / Lavage à la main</i>		EVENTUALI MACCHIE SI POSSONO ELIMINARE USANDO UN PANNO INUMIDITO CON ACQUA E SAPONE NEUTRO. <i>Stains can be removed using a cloth moistened with water and mild soap.</i> Il est possible d'éliminer les taches en utilisant un chiffon humidifié à l'eau et du savon neutre.

IT

## Prezzi

I prezzi del seguente listino sono espressi in unità di Euro. I prezzi sono al pubblico I.V.A. esclusa. I prezzi non costituiscono offerta e sono suscettibili di variazione senza alcun preavviso. I prezzi s'intendono FRANCO FABBRICA, salvo diverso patto espresso.

## Ordini

Gli ordini sono accettati con la clausola "salvo approvazione della Casa". Per consegne della collezione SEDIT di ordine con importo netto inferiore a 300,00 Euro verrà applicato un contributo forfettario pari a 30,00 Euro per il territorio italiano (ad esclusione delle regioni Sicilia e Sardegna 50,00 Euro).

## Reclami

Le contestazioni per danni derivanti dal trasporto devono essere fatte al momento dello scarico. Eventuali reclami per difetti di fabbricazione dovranno essere comunicati entro 8 giorni dal ricevimento della merce. Viene declinata ogni responsabilità per errori o anomalie riscontrate nel montaggio di nostri modelli, salvo non sia stato effettuato da nostro personale specializzato.

## Resi

I resi per difetto di fabbricazione dovranno essere preventivamente autorizzati per iscritto e dovranno pervenirci perfettamente imballati. Qualora, ad insindacabile giudizio dell'azienda vengono riconosciuti i difetti contestati, gli stessi verranno accreditati al valore effettivamente pagato.

## Pagamenti

Non sono validi i pagamenti se non fatti direttamente alla nostra sede. In caso di ritardato pagamento decorreranno gli interessi commerciali nella misura del tasso ufficiale di sconto e comunque secondo le disposizioni di cui al (DL 231 del 09.10.02). La merce rimane di proprietà della Sedit S.r.l. fino a completo pagamento della fattura di riferimento.

## Foro competente

Per ogni controversia il foro competente è eletto a Pordenone. Il presente listino annulla e sostituisce il precedente e potrà essere modificato senza preavviso alcuno in ragione degli aumenti delle materie prime, del costo della manodopera e quant'altro potrà verificarsi in maniera imprevedibile. Le descrizioni e le caratteristiche tecniche dei prodotti richiamati nel presente listino sono puramente indicativi e non vincolanti. L'azienda si riserva il diritto di modificare, senza alcun preavviso, i materiali e le caratteristiche tecniche dei prodotti per motivi tecnici e/o produttivi. Le misure indicate sono espresse in centimetri e in pollici. Per differenze riscontrate tra fotografico, sito e catalogo digitale, fa fede l'ultima versione del presente listino stampato dall'Azienda.

EN

## Prices

The prices are given in euros. The prices are for the public and do not include VAT. The prices do not constitute an offer and are subject to change without any prior notice. Unless otherwise agreed, the prices are to be considered ex-works.

## Orders

Orders are accepted with the clause "subject to approval by Sedit S.r.l.". For orders from the SEDIT collection of below Euro 300.00 (net), a Euro 30.00 fixed fee is applied to deliveries in Italy (with the exception of Sicily and Sardinia, for which the applicable fee is Euro 50.00).

## Complaints

Any damage caused during transportation should be contested when the furniture is being unloaded. Any complaints regarding manufacturing defects must be submitted within 8 days of receiving the goods. We take no responsibility for any assembling errors or defects where the work was not carried out by our specialist staff.

## Returns

Returns due to manufacturing defects are subject to prior written approval and must be shipped to Sedit S.r.l. properly packaged. Should the contested defects be acknowledged, at the sole discretion of Sedit S.r.l., they will be credited at the value actually paid.

## Payments

Only payments made directly to our company headquarters are valid. Late payments will incur interest at the official bank rate, and, in all cases, according to Italian Legislative Decree no. 231 of 09.10.02. The goods shall remain the property of Sedit S.r.l. until the invoice has been paid in full.

## Jurisdiction

For any disputes, the court of Pordenone (Italy) has jurisdiction. The current price list cancels and replaces the previous one and may be modified without notice, should the cost of the raw materials or labour increase, or should any other unforeseeable event arise. The product descriptions and technical characteristics in this price list are merely indicative and are not binding. The company reserves the right to modify the product materials or technical characteristics for technical and/or production reasons without any prior warning. Sizes are given in centimetres and inches. In the event of differences between the photo catalogue, the website and the digital catalogue, the latest update of this price list printed by our company must be referred to as valid.

FR

## Prix

Les prix du catalogue suivant sont exprimés en Euro. Les prix sont des prix publics sans T.V.A.. Les prix ne constituent pas une offre et sont susceptibles de variation sans aucun préavis. Les prix s'entendent FABRICATION FRANÇAISE, sauf convention express contraire.

## Commandes

Les commandes sont acceptées avec la clause « sauf autorisation de la Maison ». Pour les livraisons de la collection SEDIT de commande d'un montant net inférieur à 300,00 Euro, une contribution forfaitaire d'environ 30,00 Euro sera appliquée pour le territoire italien (à l'exception des régions de Sicile et Sardaigne : 50,00 Euro).

## Réclamations

Les contestations pour les dommages dérivants du transport doivent être exprimées au moment du déchargement. Les éventuelles réclamations pour les défauts de fabrication devront être communiquées dans les 8 jours suivant la réception de la marchandise. Nous déclinons toute responsabilité en cas d'erreur ou d'anomalie rencontrée dans le montage de nos modèles. Sauf s'il a été effectué par notre personnel spécialisé.

## Retours

Les retours pour défaut de fabrication devront être préalablement autorisés par écrit et devront nous parvenir parfaitement emballés. Si, par la suite l'entreprise venait à reconnaître les défauts contestés à sa seule discrétion, ils seront crédités à la valeur effectivement payée.

## Paiements

Les paiements ne sont valables que s'ils sont effectués directement à notre siège. En cas de retard de paiement, les intérêts commerciaux courent à hauteur du taux d'escompte officiel et donc conformément aux dispositions du (DL 231 du 09.10.02). La marchandise reste la propriété de Sedit S.r.l. jusqu'au paiement total de la facture de référence.

## Jurisdiction compétente

Pour tout litige, la juridiction compétente est éeue à Pordenone. Le présent catalogue annule et remplace le précédent et pourra être modifié sans préavis en raison des augmentations des matières premières, du coût de la main d'œuvre et de tout autre risque pouvant se produire de manière imprévisible. Les descriptions et les caractéristiques techniques des produits repris dans le présent catalogue sont purement indicatives et non obligatoires. L'entreprise se réserve le droit de modifier, sans aucun préavis les matériaux et les caractéristiques techniques des produits à des fins techniques et/ou de production. Les dimensions indiquées sont exprimées en centimètres et en pouces. Pour toute différence entre le catalogue photographique, le site et le catalogue numérique, c'est la dernière version du présent tarif imprimé par Sedit qui fera foi.
